

## National Symposium

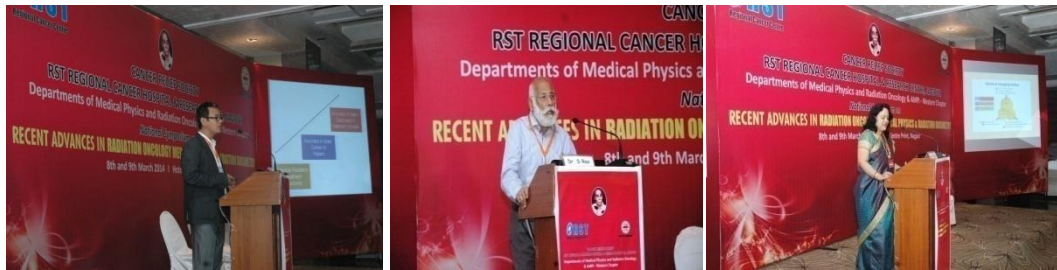

Rashtrasant Tukdoji Regional Cancer Hospital and Research Centre Organized **National Symposium on Recent Advances in Radiation Oncology Medical Physics and Radiation Dosimetry on Saturday , Sunday , 8<sup>th</sup> & 9<sup>th</sup> March 2014** at Centre Point Hotel, Ramdaspath , Nagpur. This is in association with Medical Physicists Western Chapter to commemorate and celebrate completion of 40 years of service by Rashtrasant Tukdoji Regional Cancer Hospital, in Cancer Care and Cancer Relief for the patients of Central India.

Medical Physics specialty play very crucial role in designing effective radiotherapy planning. In addition to this, radiation safety and protection of patients, radiation workers and community. Teaching and training awareness about Radiation in Medical Application are also a part of this profession. An effective and optimum use of radiation and awareness amongst community is also a vital issue for its promotion.

8<sup>th</sup> March 2014 (Saturday) Auspicious beginning lighting the lamp

**Scientific Programme , Panel Discussion & Quiz Competition**

The scientific programme was cover Radiation Oncology Medical Physics and Radiation Dosimetry connection in Radiotherapy, Radiobiology, Treatment Planning Algorithms, Imaging Oncophysics and Radiation Safety, Continuing Medical Physics Education (CMPE) and proffered paper session.

Invited talks from expertise professional from Automic Energy Regulatory Board, Bhabha Automic Research Centre and Eminent Clinical Physicist, Radiation Oncologist, Nuclear Medicine Specialist and Oncoradiologist from renound hospitals are include. And participants Medical Physicists, Radiation Safety Officers, Radiation Oncologists, Radiologists, Nuclear Medicine specialists and technologists.

There are a special Panel Discussion Session on Radiation Source Safety and Security and related current practices, which are of great concerns not only to organization but also for threat reduction challenges to be taken on for public protection in case of incidence.

Inauguration of Cultural Programme on 8<sup>th</sup> March 2014 Evening
